

Water & Wastewater Rates - Effective October 1, 2016

Base rates for all customers (determined by meter size)

	<u>Water</u>	<u>Wastewater</u>
5/8" meter	\$ 5.31	\$ 6.99
3/4" meter	\$ 5.84	\$ 6.99
1" meter	\$ 7.43	\$ 6.99
1 1/2" meter	\$ 9.56	\$ 6.99
2" meter	\$ 15.40	\$ 6.99
3" meter	\$ 58.40	\$ 6.99
4" meter	\$ 74.33	\$ 6.99
6" meter	\$ 111.49	\$ 6.99
8" meter	\$ 153.96	\$ 6.99
10" meter	\$ 196.44	\$ 6.99

Residential Utility Rate Calculation

Utility rates consist of a base rate and a volumetric rate. The **Base Rate** is the minimum bill that a residential customer would receive. It is based upon the size of a customer's meter and includes 2,000 gallons of water and wastewater usage. The **Volumetric Rate** is the amount charged to a customer for each thousand gallons used over the 2,000 gallon base amount, exclusive of winter averaging.

Residential Volumetric Rates (per 1,000 gallons exceeding 2,000 gallon base amount)

Water	\$ 3.24
Wastewater	\$ 4.77

Commercial and Apartment Utility Rate Calculation

Utility rates consist of a base rate and a volumetric rate. The **Base Rate** is the minimum bill that a commercial / apartment customer would receive. It is based upon the size of a customer's meter. The **Volumetric Rate** is the amount charged to a customer for each thousand gallons used.

Commercial Volumetric Rates (per 1,000 gallons)

Water	\$ 3.51
Wastewater	\$ 4.77

Apartment Volumetric Rates (per 1,000 gallons)

Water	\$ 3.90
Wastewater	\$ 4.77

Drainage Rates

A drainage fee was implemented in October 2009. Customers are charged a fee based upon the amount of impervious surface over within each rate class.

	<u>October 2016 - September 2017</u>
Houses	\$1.24 flat rate for all houses
Apartments / Condominium	\$0.000733 per sq ft of impervious surface
Nonresidential	\$0.000767 per sq ft of impervious surface
